Hooker Electric Bandit Reel

We set out to build the ultimate commercial bandit reel.

Our goal was simple; we set out to build the most functional commercial bandit reel in the fishing industry. We began by engineering it with all the functions that commercial and green stick fishermen are accustomed to. We designed it for ease of use and the durability that you count on to keep fish on your deck. Use it for bluefin or yellowfin tuna, swordfish, deep-drop rigs, for snapper and large grouper.

LINE CAPACITY	MAX			SUGGESTED	
3.5mm line	Total	3,000 ft	Working	2,400 ft
3.2mm line	Total	3,761 ft	Working	3,000 ft
3.0mm line	Total	4,125 ft	Working	3,296 ft
2.0mm (0.078) line	Total	9,680 ft	Working	7,744 ft
1.8mm (0.070) line	Total	1,2065 ft	Working	9,649 ft
1.4mm (0.055) line	Total	19,980 ft	Working	15,981 ft

RETRIEVAL RATES
(At full speed, not under load)

Empty spool	2.875 ft/per revolution	282 FPM
Full spool	6.25 ft/per revolution	612 FPM

The Bandit Reel Includes

- Powerful 4hp brushless 24 VDC motor
- Heavy duty 1.25" stainless steel shaft
- 6061 billet aluminum construction
- Gear-driven for durability and reliability
- Spool 7½" width, 5½" ID, 12" diameter
- Full variable speed control
- Smooth lever-drag operation (Up to 200lbs of drag)
- Backup handle (for retrieval)

WIRING
- 12ft marine-grade connecting wire included (custom lengths available)
- Reel draws 10amp under minimum load and can draw up to 80amps under max load
- For extending wire lengths less than 10ft use marine-grade 4-gauge wire
- For extending wire lengths greater than 10ft, use marine-grade 2-gauge wire
- Connect directly to a 24v source or a 24v 50 amp plug

NOTE: The Hooker Electric Bandit Reel DOES NOT include fishing line or rig.
